

## DELIVERABLE D9: THE CURATED RESOURCES ON A RECOGNIZED CLARIN SERVER

Author:

Victor de Boer (VU Amsterdam)

Deliverable type: SOFTWARE

| Version | Date       | Author         | Description   |
|---------|------------|----------------|---------------|
| 0.1     | 26-04-2014 | Victor de Boer | First version |
| 1.0     | 23-04-2014 | Victor de Boer | Final version |
| 1.1     | 23-05-2014 | Victor de Boer | Minor edits   |
|         |            |                |               |

This deliverable describes the availability of data and metadata on CLARIN Servers. It is a copy of Deliverable D8, since in our case there is no clear distinction between data and metadata.

### INFRASTRUCTURE (LIVE LINKED DATA)

The infrastructure, as described in Deliverable D5 was transferred to Huygens ING – a CLARIN center. Huygens ING will maintain the live linked data in the form of a running ClioPatria Triple store available at <http://dutchshipsandsailors.nl/data>. Here the (meta)data as well are available in RDF.

### OFFLINE DATA AND METADATA

The datasets were also exported to RDF/XML format and are submitted to the Data Archiving and Networking Services (DANS) of the KNAW through Easy. The screenshot below shows the EASY interface and the five datasets submitted. The datasets each are described using EASY metadata and the CMDI metadatafiles are included

### My deposited datasets

Your datasets are shown here with their status:

- Drafts: datasets you have entered, but have not submitted yet.
- Submitted: datasets you have submitted, but which DANS has not published in EASY yet.
- Published: datasets which have been published in EASY.
- Maintenance: datasets which have been published in EASY, but are not visible temporarily due to maintenance.
